DETAILED ACTION

Allowable Subject Matter

1. Claims 63-73 and 84-102 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Adams (US Pat. 5,528,217) discloses a collision avoidance system for a trailer including transducer/receiver device 22 (col. 4, lines 11-34), microprocessor 89 connected to a plurality of ultrasonic acoustical transducer/receiver devices 22 such that once an exterior object has been detected at one of the devices 22, the microprocessor 89 will operate the warning display system 26 (col. 4, lines 11-34; col. 5, lines 25-64; Figure 4), warning system 26; specifically, a display including an array of light-emitting diodes that may become illuminated indicating distance ranges between the surfaces of the vehicles and a remote exterior object. The color will represent how many feet from the surface of the vehicle "in an area where an acoustical transducer/receiver 22 is disposed" (col. 5, lines 56-67; col. 6, lines 1-16; Figure 6), and visual displays including a numeric display 88 and multi-color display 42 as well as providing audio sound or audio messages; the plurality of ultrasonic acoustical transducer/receiver devices 22 located on a conventional cargo trailer 18 (col. 4, lines 35-52). However, Adams nor any other prior art of record disclose in their entirety the claimed trailer based collision warning system comprising a sensor, sensor control unit, driver vehicle interface, alarm unit, and security feature built into the driver vehicle interface that utilizes existing collision warning sensors of one or more types along with additional sensors capable of determining alarm conditions, wherein the alarm conditions include unauthorized opening of trailer doors, unauthorized opening of fluid

valves, unauthorized movement of the trailer, and movement of persons in close proximity to the trailer for a preprogrammed period of time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
